## **METEORITE MONITORING**

### **Work, Health and Safety (WHS) Policy**

Revision 3 (Nov 2016)

#### **Our Commitment**

We recognise the importance of safety for all people involved and affected by our company operations. We're committed to ensure that in everything we do, we ensure safety is our number one priority and that we always promote a culture of safety.

We aspire to zero harm in all our workplaces. Our fundamental belief is that all injuries can be prevented. Responsibility starts with each one of us, and as such we will consult with staff, contractors and all other stakeholders in decisions that affect workplace health and safety.

We are committed to an effective implementation of our WHS Policy and to continual improvement in our WHS Performance.

#### **Our Actions**

To meet our commitments under the Work Health and Safety Act (2011) and Work Health and Safety Regulations (2011); we will set measurable objectives and targets, we will develop, implement and maintain effective management systems, and comply with relevant industry standards and legal requirements.

Our main objectives:

- Provide a safe place of work for all employees of the company, contractors and members of the public during the course of our activities.
- Implement the health and safety risk management process to ensure workplace hazards are identified, assessed, controlled and reviewed where they can not be eliminated.
- Provide, handle and store materials, equipment, structures and substances without risk to health and safety.
- Promote and foster a supportive and safe WHS culture and ensure that all staff and contractors are aware of their responsibilities for WHS in areas under their control.
- Establish measurable objectives and targets for WHS aimed at the elimination of work related illness and injury.
- Investigate the cause and take corrective action for all incidents and dangerous events.
- Regularly measure, publish and continuously improve our safety performance.

This policy will be reviewed annually in consultation with all staff and contractors.

Kind Regards,

**Meteorite Monitoring**
